

Japanese Biotech Delegation to Switzerland

Join us at the **Swiss Biotech Day 2026** and explore the Swiss Biotech Ecosystem!

The Swiss Biotech Day is one of Europe's leading biotechnology events — a key gateway for international delegations to connect with the Swiss biotech innovation ecosystem and to promote cross-border investments, public-private partnerships, R&D collaborations, and the exchange of best practices. In 2025, over 3000 participants from 50 countries gathered to network and explore collaborative opportunities with the Swiss life sciences industry. In 2026, the event will once again bring together global industry leaders to explore business opportunities in R&D, manufacturing, data management, AI and innovative financing.

Experience the latest advances in Switzerland's thriving biotech ecosystem at this exclusive event in Basel – Europe's most innovative life sciences hub. Japanese biotech and pharma companies are invited to build lasting collaborations with Switzerland's world-class biotech community and connect with leading companies, startups, researchers, innovation parks, accelerators and investors.

Why Attend?

Networking, matchmaking & partnering with ...

- Swiss and international biotech entrepreneurs and CEOs
- Medium-sized bio/pharma companies that seek partners (in-/out-licensing)
- CRO and clinics that run or contribute to clinical trials
- Innovative start-ups, academic partners / TTOs seeking public/private partnerships
- Investors & VCs: discover investment opportunities in Swiss startups and connect with biotech investors

... by participating in:

- Company & startup pitch sessions and thematic panel discussions
- Pre-scheduled 1:1 partnering meetings
- Exclusive networking receptions

About Us & Contact

The Swiss Business Hub Japan is dedicated to foster business collaboration between Switzerland and Japan. We are excited to welcome Japanese biotech and pharma companies to explore the Swiss biopharma ecosystems.
